

Fishing trip to up the fells: Lake Harjusjärvi

This excursion is a great opportunity to experience fishing in the real wilderness and enjoy the beautiful arctic summer in the fells.

The day will begin in Lomatärppi at the time agreed, for example at 9 o'clock in the morning. The journey to the lake is about 30 km, of which 5 km off-road road. There is 500 m to the lake by walk. Two rowing boats will be waiting there.

We will leave the fishing nets into the lake and fish with a fly or a snare. If you want, you can walk to the pond a little further away, where there is also a small plywood boat. We will make a campfire and eat snacks (not included) with the beautiful view.

This trip has a fish guarantee: if you don't catch a fish, you don't have to pay. In the evening, the fishes will be put in Lomatärppi's smoking pot and everyone will enjoy their life. There are graylings, pikes and whitefishes in the lake. You can fish in this lake if you have paid the state fisheries maintenance fee.

Duration: about 8 hours.

Price: €360 (1 – 3 people)
Suzuki Jimny as vehicle.

Take with you: Rubber boots, weather-appropriate clothing, fishing equipment and **your own snacks and drinks.**
